# FAUX CONCRETE PANELS

urbanCONCRETE panels combine the smooth clean lines and finished look of formed concrete with ease and affordability. Each panel has been cast from real concrete to ensure a realistic texture.

## CONCRETE PANELS. REDUX.

### FAUX CONCRETE PANELS

Just because something isn't real, doesn't make it any lesser. urbanCONCRETE faux concrete panels offer you all the look, feel, and style of authentic concrete without the hassle, cost, or a difficult installation process.

urbanCONCRETE panels are made from high-density polyurethane formed in real concrete mold. Each panel is hand painted to match the authentic look of poured concrete walls.

## STYLING AND PROFILING.

Every aspect of poured concrete walls has been captured in these faux panels. urbanCONCRETE panels come in two styles, with the anchor holes and without.

### TO CIRCLE

Authentic anchor marks.

### OR NOT TO CIRCLE

Prefer the flat look of concrete? We offer that too.

# BENEFITS OF FAUX CONCRETE.

## **EXTREMELY LIGHTWEIGHT**

Weighing in at 1/2 lb. per square foot, this feather weight panel can be installed anywhere.

## **COST SAVINGS**

Putting this up in a fraction of the time and with no support makes things easy and saves money.

## **LOOKS LIKE THE REAL THING**

Once installed and caulking is applied, all screws or nails are hidden, providing the finished look of real brick.

## **IMPACT RESISTANT**

High traffic areas aren't a problem for these panels.

## **WATER PROOF**

Using a closed cell technology, the panels won't absorb liquid.

**SMP3DWALLS**

# FIRE RESISTANCE, WE GOT YOU.

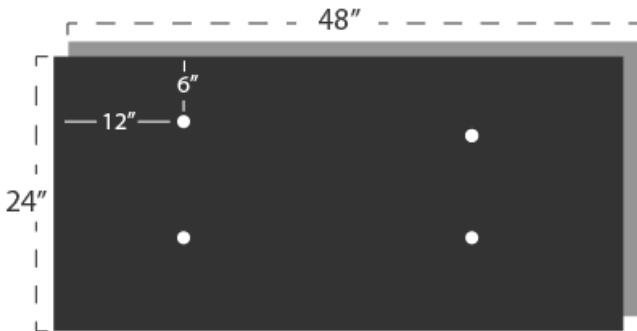

Some applications or installs require strong fire-resistance. Don't fret. urbanCONCRETE faux concrete panels come standard with a Class A fire-rating.

## ONE SIZE DOESN'T ALWAYS FIT ALL.

urbanCONCRETE panels are available in 2 panel sizes.

**24" x 48"**

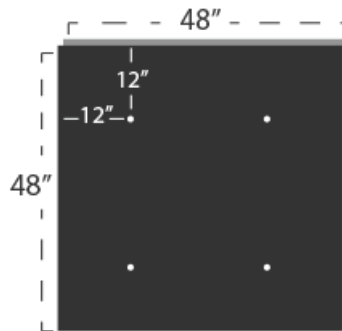

**WIDTH: 48"**

**HEIGHT: 24"**

**THICKNESS: 1"**

**SQ.FT. PER PANEL: 8**

**48" x 48"**

**WIDTH: 48"**

**HEIGHT: 48"**

**THICKNESS: 1"**

**SQ.FT. PER PANEL: 16**
